PROFESSIONAL SUMMARY

Trust & Safety, fraud, and risk operations specialist with 8+ years of experience investigating account risk, enforcing platform policy, and resolving high-stakes Tier 2 escalations across social media, banking, and peer-to-peer payments. Currently reviewing flagged accounts, appeals, and policy enforcement escalations for one of the world's largest social media platforms, handling 60-80 complex cases daily while holding 95%+ CSAT against an 80% department benchmark. Previously investigated fraud flags, account takeover, and disputed transactions for Ally Bank, and unauthorized-transaction and payment dispute reports for Cash App. Known for consistent enforcement decisions under detailed procedures, thorough case documentation, and composure with sensitive or distressing content. Proficient in Salesforce, Zendesk, and Agent Connect, with Udacity certifications in SQL, DevOps, AI/ML, generative AI, and agentic AI fundamentals.

CORE SKILLS

Trust & Safety Operations | Policy Enforcement and Appeals | Content and Account Review | Community Guidelines | Independent Judgment

Fraud Investigation | Account Takeover (ATO) | Identity Verification | Disputed Transactions | Unauthorized Activity Escalation | Risk Operations

Tier 2 Chat and Email Support | High-Volume Case Review | Case Documentation | Pattern and Trend Identification | SLA Adherence | CSAT Optimization

Salesforce | Zendesk | Freshdesk | Agent Connect | CRM Ticketing Systems | SQL (Fundamentals) | DevOps (Fundamentals) | Microsoft Office Suite | Google Workspace

PROFESSIONAL EXPERIENCE

Tier 2 Support Specialist - Policy Enforcement and Account Integrity 2025 - Present

Accenture - Client: global social media platform (name withheld under NDA)

- Review escalated user reports, flagged accounts, and appeals against platform community guidelines and terms of service, applying enforcement policy consistently across 60-80 interactions per day.
- Investigate Tier 2 account integrity issues including account lockouts, 2FA failures, login errors, and suspected unauthorized access.
- Exercise independent judgment in ambiguous and high-risk cases while adhering to detailed procedural requirements and SLA targets.
- Engage sensitive and at times distressing user situations with professionalism, discretion, and objectivity.
- Document every case in CRM ticketing systems to support downstream investigation, improve knowledge base accuracy, and reduce repeat escalations.
- Partner with internal trust and safety, engineering, and policy teams to route and resolve complex or high-priority cases.
- Consistently maintain 95%+ CSAT against an 80% department benchmark; recognized for thoroughness in case documentation and cross-team escalation handling.

Customer Service Representative - Account Security and Fraud Support Dec 2022 - 2025

Alorica - Client: Ally Bank

- Researched and resolved fraud flags, disputed transactions, and restricted accounts for bank customers, applying established procedures in a regulated environment.
- Verified customer identity and escalated suspected account takeover and unauthorized transactions to investigative teams with complete supporting documentation.
- Assisted customers with account openings and closures, wire transfer submissions, and debit card requests, completing identity verification and compliance steps for each transaction.
- Handled 50-70 interactions per day across phone and digital channels while maintaining service accuracy above 95%.
- Communicated investigation outcomes and next steps clearly to customers during stressful, high-stakes account situations.

- Coached 4-5 fellow agents on procedures and quality standards, improving team response times and quality metrics across the shift.

Customer Support Representative - Payments and Account Risk Dec 2020 - Dec 2022

Ibex - Client: Cash App

- Reviewed reports of unauthorized transactions, compromised accounts, and payment disputes on a high-volume peer-to-peer payments platform.
- Gathered case details from users, documented findings, and routed cases to the appropriate internal risk and dispute teams within SLA.
- Supported users with in-app software navigation and Cash App Taxes, troubleshooting account features and guiding customers through preparing and filing their tax returns.
- Identified recurring scam and dispute patterns and built cases that resulted in suspicious accounts being flagged for risk review, escalating emerging trends to team leadership.
- Mentored new hires to accelerate onboarding and improve decision consistency across shifts.

Shipment Coordinator Dec 2018 - Dec 2020

Amazon

- Coordinated shipping schedules and carrier communications across 100+ daily shipments while maintaining documentation and inventory controls.

Customer Service Lead Dec 2015 - Dec 2017

Publix

- Oversaw a front-end team of 10-12 associates and acted as supervisor for escalated customer issues and shift performance.
